PROFESSIONAL SUMMARY

Detail-oriented Data Analyst and MCA graduate with demonstrated experience in operational data analysis, dispute case investigation, KPI reporting, trend analysis, and process improvement in a BPO/operations environment. Proficient in SQL, MySQL, MS Excel (Pivot Tables, VLOOKUP), and data validation. Hands-on experience analyzing Walmart SFF dispute data, identifying data patterns and root causes, and generating actionable business insights through structured reporting. Strong foundation in database management (MySQL, MongoDB, MS Access) and programming (Java, C++, C#). Targeting Data Analyst, Business Analyst, MIS Executive, Reporting Analyst, and Operations Analyst roles.

PROFESSIONAL EXPERIENCE

Acuity Tech

Subject Matter Expert (SME) — Promoted

20 December 2025 – Present | Project: Walmart SFF Dispute Process

- Conduct end-to-end data analysis on 100+ Walmart SFF dispute cases weekly, identifying patterns, anomalies, and root causes using structured analytical frameworks.
- Design and deliver daily, weekly, and monthly operational reports and KPI dashboards for management, tracking resolution rate, TAT, and accuracy metrics.
- Perform trend analysis on dispute data to uncover recurring operational issues; recommendations led to measurable improvement in process accuracy.
- Validate and audit transaction-level data, ensuring 98%+ data accuracy and adherence to SLA and quality standards across dispute workflows.
- Translate operational data into actionable business insights, supporting management decisions on process optimization and team performance.
- Mentor and train 5+ new associates on data validation protocols, reporting procedures, and analytical workflows, reducing onboarding time.
- Collaborate with cross-functional stakeholders to communicate data findings and drive process improvement initiatives.

Operations Associate

07 July 2025 – 20 December 2025 | Project: Walmart SFF Dispute Process

- Processed and analyzed 50+ dispute cases daily, reviewing transaction-level data to validate claims and ensure resolution accuracy.
- Performed data cleaning and validation on operational datasets, maintaining high data integrity and quality standards.
- Identified and documented recurring data discrepancies and dispute patterns, contributing insights that informed process improvement.
- Prepared structured operational reports summarizing case volumes, resolution rates, and error trends for management review.
- Consistently met 100% SLA compliance targets; recognized for analytical accuracy, leading to promotion to SME within 6 months.

Acadecraft Pvt. Ltd.

Research Associate

November 2021 – August 2022

- Conducted structured data collection and analysis for research projects, synthesizing findings into clear reports and presentations.
- Coordinated with 3+ cross-departmental stakeholders to deliver project outcomes on schedule; developed strong data interpretation and reporting capabilities.
- Awarded **Employee of the Month (July 2022)** for outstanding contribution, analytical rigor, and cross-team collaboration.

TECHNICAL SKILLS

Data Analytics: Data Analysis | Data Validation | Data Cleaning | Trend Analysis | Root Cause Analysis | KPI Tracking | Performance Metrics | Business Intelligence | MIS Reporting | Operational Reporting

Excel & Reporting: Advanced Excel | Pivot Tables | VLOOKUP | HLOOKUP | Conditional Formatting | Charts & Graphs | Dashboard Reporting | MS Office Suite | PowerPoint

Databases & Query: SQL | MySQL | MongoDB | MS Access | Data Management | Database Querying

Programming: Java | C++ | C# (.NET)

Soft Skills: Analytical Thinking | Problem Solving | Critical Thinking | Stakeholder Communication | Team Collaboration | Attention to Detail | Adaptability | Time Management

PROJECTS

Walmart SFF Dispute Data Analysis (Acuity Tech, 2025 – Present)

- Analyzed large volumes of Walmart SFF dispute transaction data to identify trends, data quality issues, and operational bottlenecks.
- Developed standardized reporting templates for daily, weekly, and monthly KPI tracking, improving reporting efficiency and management visibility.
- Applied root cause analysis to recurring dispute patterns, generating insights that supported process optimization decisions.

Cab Rental Management System (Academic Project)

- Designed and developed a relational database-driven application to manage customer records, vehicle inventory, booking data, and billing.
- Implemented MySQL schema with normalized tables enabling efficient data retrieval, reporting, and operational management.
- Built structured data entry and reporting modules to automate record-keeping and reduce manual data errors.

Excel Reporting Dashboard (Academic Project)

- Developed Excel-based reporting dashboards using Pivot Tables, VLOOKUP, and charts to visualize academic and operational datasets.
- Performed data cleaning, validation, and transformation to ensure accuracy prior to analysis and reporting.

EDUCATION

Master of Computer Applications (MCA) — Lovely Professional University, Phagwara | 2022 – 2024 | GPA: 7.34 / 10

Bachelor of Computer Applications (BCA) — Lovely Professional University, Phagwara | 2019 – 2022 | GPA: 8.08 / 10

CERTIFICATIONS

- Networking Basics – Cisco Networking Academy (Sep 2024)
- Programming in Java – Cipher Schools (Jul 2023)

ACHIEVEMENTS

- **Promoted to Subject Matter Expert in 6 months** at Acuity Tech — recognized for analytical performance, data accuracy, and process expertise.
- **Employee of the Month – Acadecraft Pvt. Ltd. (July 2022)** — awarded for exceptional research contribution, data analysis quality, and cross-team coordination.

EXTRACURRICULAR ACTIVITIES

- RCCSTE'24 Cybersecurity Conference — Attended sessions on data security, emerging technology trends, and analytical applications.
- IoT Hackathon — Participated in data-driven IoT innovation challenge; contributed to data collection and system design.
- National Service Scheme (NSS) — Active volunteer; completed 7-day Winter Camp; community service and team leadership experience.
